BLUE CRANE ROUTE Municipality

Province of the Eastern Cape

Office Of the Municipal Manager

Our ref: 16/1/1/4

Date: 04 February 2026

NOTICE NO: 13/2026

NOTICE: WESTVIEW BOOSTER PUMP – COMMISSIONING UPDATE

The installation of the Westview booster pump has been completed, and the system is technically ready for operation. All electrical and mechanical works have been finalised.

Commissioning of the booster pump is currently delayed due to low water levels at the Nojoli Reservoir, which is presently at approximately 5%. At this level, there is insufficient static head to adequately supply the pump suction. In the interim, the Hillview (Town) Reservoir is overflowing, and inflows are being carefully regulated to reduce spillage and to allow Nojoli Reservoir levels to recover.

Once the Nojoli Reservoir reaches an operational level, the booster pump will be manually commissioned to improve and stabilise water supply to the affected zones. The Municipality will continue to monitor the situation closely and will provide further updates as progress is made.

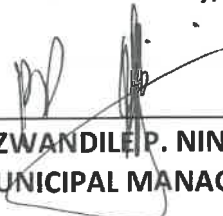

We thank residents for their patience and cooperation.

BCRM is working for you.
