1.3 EXECUTIVE SUMMARY

The expenditure contained in this report has been implemented in line with the approved 2021/2022 Budget and Service Delivery Budget Implementation Plan (SDBIP).

The Operating budget is being spent in-line with cash flow projections at a macro level and improved budgeting mechanisms must be introduced to ensure better accountability.

The major components of the Municipality's financial performance, as reflected in Tables C4 to C7, will be discussed in this section.

1.3.1. Overview of Operating Revenue and Expenditure performance for January 2022 (Table C4)

The Table below is reflecting an analysis of the Operating Revenue and Expenditure performance compared to the approved operating 2021/2022 adjusted Budget.

1.3.2. Below is a discussion of the significant revenue and expenditure variations:

The statement of financial performance indicates a deficit of approximately R6 million, but if the capital grants utilised, is not taken into account, the Deficit will increase to R11 million which is the result of depreciations cost not funded.

As mentioned in previous reports the continuous ongoing challenges for the municipality, but not limited to, are old outstanding debtors, ageing infrastructure, unfunded mandates, non-cash-backed provisions.

1.3.3. Operating Revenue

Refer to Table C4- Financial Performance

It must be noted that the revenue for the consumer's services and rates is the accrued revenue as raised through the billing accounts and not what is actually received.

Revenue is at 57% which is 1% less than the budget. Property Rates is R10 million more than budgeted but the possibility also exist that adjustments may be needed for the Game Farmers rates levied, if mistakes were made by the Valuer with their valuations. This is at the attorneys for possible corrections to be made.

1.3.4. Operating Expenditure

Refer to Table C4 – Financial Performance

The total operating expenditure is at 56% against the budget at the end of January 2022.

1.3.5 Capital Expenditure

Refer to Table C5 – Capital Expenditure

The total capital expenditure at end of January 2022 was at R 11,4million

The Technical Services department must make sure that projects are according to plan so that the 100% of grants spending by 30 June 2022 has been reached .

1.3.6 Cash Flow

Refer to Table C7 - Cash Flow & Table SC9

The total cash available for this Municipality at end of January 2022 was a deficit amount of R2,7million.

The reason for the cash deficit if all grants is considered is as follows:

Debtors are shown as what is billed and not what was actually received,

The projected cash flow as per attached “Cash flow statement” shows a projected zero balance cash flow balance at 30 June 2022 if all grants are fully spent at year end which can be more as the possible SAMWU provident fund claim of R17 million is not included.

Therefore, the following recommended measures must be put in place to ensure a positive cash flow at year end:

- 1) That all Grants are spent before 30 June 2022 to utilise the full VAT portion for own revenue as per budget
- 2) To make sure that the correct electricity and water readings are taken, and losses are controlled through regular inspections.
- 3) To ensure strict credit control measures are in place and services are cut when necessary to achieve a higher payrate around 90%.
- 4) Strict budget controls are in place and orders are approved on an ad-hoc basis if more than R5 000.
- 5) Subsistence and Travelling cost are restricted as far as possible.
- 6) That steps been taken against San Parks for the outstanding amount of R3.6m plus interest.

1.3.7 Current and Non - Current Assets

Refer to Table 6 – Financial position

Current assets

The largest current assets are consumers and other debtors (Rates) combined at R 43,3 million. Cash and Cash equivalent at R 4.9 million, Call investments deposits are R100 000. The total Current assets at end of January 2022 was R60 million. Current assets are highly liquid, in that they can easily be converted to cash when required to meet short term obligations. Although the current consumer debtors cannot be easily converted, but only about R7million.

Non -Current Assets

Non – current assets are resources with a cash value which can be recovered exceeding one financial year. The Property, plant and equipment item remains the most material resource on the statement of financial position at R 805,8 million. Other Fixed assets was at R25,1 million which brings the total Non-Current assets as at end January 2022 at R831,5 million.

The municipality should prioritise the repairs and maintenance of the existing infrastructure assets to improve the service delivery capacity of the assets since the municipality is faced with ageing infrastructure.

1.3.8 Current and Non – Current Liabilities

Refer to Table 6 – Financial position

Current liabilities

The largest current liabilities are Trade creditors and other payables at R 47,1 million, which is mostly unspent grants. Also included in the current liabilities is the short portion of the post retirement liabilities which is not cash funded as it relates to future estimate. The total Current liabilities were at January 2022 at R80 million.

Non-Current liabilities

Non-Current liabilities are R 5,5million as the Municipality took out a loan with Nedbank, for various capital expenditure identified.

Debtors age analysis

Refer to Table SC3 – Aged debtors

The municipality has a total consumer debtors balance of more than R 140 million, ranging between 0 days to over a year.

The total debt with a potential to be irrecoverable amounts to R 117 million determined on the basis of being more than 90 days in arrears and this is 83% of the total debtors balance.

1.3.9 Creditors Age Analysis

Refer to Table SC4- Aged Creditors

The municipality should strive to pay suppliers within 30 days to avoid interest payments and to be compliant to the MFMA. The total trade creditors as at end January 2022 was R 2million.
